SKIN CANCER.

Several years ago I warealled to see a colored womaniwho had a mangaant form of cancer on her foot. The cancer grew worse under the pre-

scribed treatment, and the tors and one side of the foot were at length eaten entirely away,

The patient could not have survived much longer, but I confinenced the use of Swift's Specific, and it cured her sound well. That was three years up, and there has been no fotune of the disease. I regard Swift's Specific a most excellent medicine for blood diseases; as its tendency is to drive out the polsu.

The action of the democrats to-day in opposing the resolution of Mr. Dingley was evidently the beginning of the obstruction method which they intend to adopt in all cases for the house where there is the least possibility of succeding. To day they were aided by Representative Bermann, who objected to the resolution because it inside no provision for the reference of bills to the Indian depredations committee, and all bills for the relief of people who have suffered by reason of Indian depredations would be delayed. Mr. Hershann had an amendament, which he was not silved to get in, so he voted with the democrats. I was not a strict party vote by which the democrats won, but several republicans voted with them because they thought at better policy to wait until the rules were adopted before the house received any bills. "Bergeant Lotter," said Sternberg, "came to my shop about a week ago said gave me the work, remarking at the same time, It want my 10 per cent out of this." I did not tell, him I would give it to him or that I would not and he left. If he demands his commission, I will give it to him but it will not come out of my pocket. I will charge it up to the state in my account. The work given to me by Mr. Leilar amounts to \$1.23 So, and his commission would be short of \$1.3. It I should meet his demand out of the money coming to me I would good on the job. the money coming to me I would lose on the job, but I would rather lose every decent then make

conference committee was adopted yesterday, the house had a protracted wrangle this morning and wound up by going into the hole it had just committee of the whole, two or three weeks ago, which leaves the salaries as they stand. Now the senato increased the pay of the sasistant sorganical among the form \$1 to \$5, that of the messenger from \$1 to \$5.

\$4 to \$4 60, and that of the porter from \$3 50 to \$4. The house this morning agreed to adjoint on December 20 for the holidays and massemble or January 8. In the Senute a motion to amend the joint resolution to make the dates 20th and 30th of December was voted down, after which the subject was inid saids for the other business. The pending motion then was to suspend the pay of members and employes during the vacation.

The members and employes of the legislature The members and employes of the logislatures to day received warrants for the milenge and salary due them. Senator Preston of Walla Walla, was the first to receive his pay, and his warrant was the first drawn by hadditor Reed, The legislators drew their pay without due authority of law, as the bill providing the mannor of payment has not been signed by Governor Perry. He did not receive it until this siteration. The bill he signed provides for the payment of logislative employes.

Stevenson will offer a resolution in the house to-morrow morning to allow Speaker Feighan 43, extra, per day as an officer of the house. The constitution prohibits the allowance of extra pay-to him as a member, but not as an officer.

The squabble over the disposal of the code a assuming gigantic proportions, and when the matter comes up for final disposal there will be some lively debating. A bill has been introduced in both houses giving the work to W. Late HIL, according to his proposition published in The Origorian on Thesday last. The bill provides for the publication of about 1800 conics for this disposal of the section and the conics for this disposal of the section. for the publication of about 1200 conies for the disposal of the state, and Mr. Aftil is allowed to seil all additions to copies required at the rate of \$10 per set. It is very generally understood that this would make it a very fat thing. No body would begradeo Mr. Hull profit out of the business, but there are vigorous objectious to allowing the Bancroft. Whitney, Company, which seems to be backing the outlishing part of the matter; to make any such profit. Sanborn, the spont of the company, is on the ground lobbying for the passage of this bill; and this fact has originated the opposition, which would not have occurred otherwise. The copyright of the book is left out of the question in the make-up of the bill, and would, of course, so to the publishers, and it would be the fattest take of the season. It is not make-up of the bill, and mored that there is a sack behind this bill, and that it will be used without limit to secure its nat-

One senator said that he would rather the state paid \$16,000 to the compiler and reserve the copyright, than pay the compiler and reserve the copyright, than pay the compiler nothing and left bin have the copyright. Two dollars and fifty combiner on sood profit on the Looks, but when it is put at \$5 per volume! it is out of sail reason and only puts the state's good money 'into the hands of these California sharks, who have ridden on the necks of the territory for so many years. Gigantic Dimensions and Particl Success

KANSAS CITY Dec 12 The great sugar swindle planned by the American Sugar Company has cuplanned by the American Sugar Company Brs cuttirely collapsed and the townships which roted
bonds to foster the industry will lose not ling
All the bonds, 200 000 in amount voted in Meade
county, have been canceled and the serip issued
by various townships in Clarke county
have been destroyed exhepting 51,000 voted by
townships and this cannot now be negot ated
owing to the publicity given to the swindle The
sugar company's schemely was agignatic one and owing to the publicity given to the swindle. The sugar company's scheme was a gigantic one and if it had been successfully executed a million dollars would not have clovered the loss austained by the counties and townships where the company contemplated operations.

Agents had been actively at work in Stanton, Haskell Frait, Grant and Johnson counties, and had succeeded in arousing such enthusiasm over the new industry that they came to regare it as their salvation from possible ruin caused by un certainty of the yield from other crops than per guiture states that the company splan included the promised erection of a hundred mills in various parts of Western Knissa for which a subsidy aggregating over \$100,000 was to have been asked.

A Good Banking Business—The Public Schools—Improvement Notes. Forest Greve, Or., Dec. 11.—The Forest FORRET GROUP, Or., Dec. 11.—Incrorman force bunk, though not yet a month old, is ful-fledged and in good running order. C. M. Keep, president, and C. Baldridge, cashier, are recently from Kansas City, and are thoroughly conversant with the business of banking. They report business, so far, to be much better than they expected, and also that they are here to stay. It is their present intention to build a brick building during the coming summer. They merit and will doubtless receive the entire business of this community that properly belongs to an institution of this kind.

In general.

Yorest Grove needs some kind of a stimus

Through Dr. Darrin's Peculiar Mode of Treatment.

Mote of Treatment.

Mr. Editor: During the past two years I have been reading in The Orknowlan of the wonderful curs performed by Drs. Darrin, with their Electro Magnetic Treatment. I became very in uch interested in them, as I had been sorely afflicted at intervals during the past fifty years, with neuraliza of the stomach, livor and kidney compilaint and nervous dyspepsia, and at times so depressed that it was almost unbetrable and bordering on insanity. During all these years I have consulted many physicians and taken their prescriptions, and none that seemed to do me any good, and last spring having a bilious attack which aggravated my old troubles, I began to run down and lose vitative, I resolved to try Drs. Darrin's system of treatment. I applied to them, and after a thorough examination, said they could make a well, but not's young man of mo, with a six month's course of treatment, which I accepted. I commenced to improve immediately, and now acknowledge their success in fulfilling their contract, and will say that for the past two months I have enjoyed perfect legalt, and sincerely wish to renier my gratitude to the Giver of all good and to Ilis agent who have curied me of my afflictions by helr, peculiar trhatment, and willingly recommend all who are allicted to call on the doutors and be bended and give them a thorough trial before crying humbourgation in the doutors and be bended and give them a thorough trial before crying humbourgation in the doutors and be bended and give them a thorough trial before crying humbourgates. Secretary of State G. W. McBride was here this week, and is hiving his land at the intersection of the St. Helens & Nehalem and Northern Facilic railroads surveyed, prepartory to being platted and sold for town lots. Miss Mary Convers of Chatskanie, has accepted a position in the Oregon Bits office. There is considerable indignation here among the citizens and taxpayers of this vicinity, regarding the action of the Justice of the peace and la doctor, who held an inquest over the remains of an educated Indian who died at the home of his parents on Scappoces bay, of heart disease. It was believed by all interested parties that the Indian died from natural causes and that an inquest was entirely unnecessary. It is rumored that the county court will refuse to pay the expanses of the inquest.

What will SA POLIO do ? Why it will clean paint, make oil-cloths bright, and give the hoors, tables and shelves a new appearance. It will take the grease of the cishes and off the pots and paus. You can scan the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even he greaty kitchen sink will be as clean as a new pin if you use SAPOL O. One take will prove all we say. Be a clever housekeeper and try it.

IDEAL BROILING.

Broiling can be done in the oven of the harter Oak Range or Stove with the Wire lauze Oven Door, more perfectly than over Hanze Oven Door, more periodry than over the live coals.

Lay the sieak, chops, ham or fish on a wire broiler or meatrack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

This is the light way to broil, meatra.

There is no thirt of coal-wayer smoke. THIS IS THE IDEAL WAY TO BROIL MEATS.
There is no taint of coal-gas or smoke, and the meats are more tender and better in flavor than those broiled over the coals.
The convenience or broiling in the oven will be appreciated by every house keeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauze Oven Door should be preferred to all others now in the market.

ARRESTED IN SAN PRANCISCO. Chief Crowley Asks if August Stranb Is Wanted In This City.

In This Oity.

Chief Parrish has received a letter from Chief of Police Patrick Crowley, of San Francisco, advising him that Angust Straub is under arrest in that city for burglary, and asking whether, or not he is wanted in this city the San Francisco chief being aware that the prisoner came from this city. Soon after the recent break from the county jail here the authorities learned that the saws, etc. with which the prisoner managed to work their way out of their place of confinement, were furnished them by Straub, whol was brought here from the interior for selling Hyuor to Indians, but was discharged from custody after conviction upon pleading the pumper act. By the time the authorities became acquainted with this fact Straub had cleared out of the counter.

Chief Parrish consulted with Sheriff Kelly yesterday afternoon upon the advisability of laving Straub extradited, because the offense he comarcen consulted with theriff Kelly res-reday afternaon upon the advisability of having raub extradited, because the offense he com-ittee here ir pindsballe by confinement in the mitentiary. delay. As it was snowing here in the Sisklyou
mountains it is impossible to say whether trains
can get through on time or not. The damages to
tracks and bridges are out of this division, and
just what progress has been made in repairs is
not definitely known here. Large gangs of men

Municing, Germany, Nov. 23, 1889.—The first hing I noticed on stepping on German noll was that the ground seemed to be moving. I had become so used to the motion of the steemer that I was a day or so before form if me seemed firm again. It was on a beautiful Sunday in November that we first saw lar d—the rolling hills of Ireland. In the afternoon we came in sight of England; and sa the setting sun tinted the Welch hills at a rock-bound coast of the British island, sanding its rays glittering over the occan, at made to me a never-to-be-forgotten scene. Mone but those who have ex-perienced it can form an idea of the de-licious throng of sensations which rush into an American's mind, when he first comes in right of Europe. To a student, especally of art, music or medicine, it is the land or on which his studious years have pon-dered. The royage across the Albante is a nort of blank page in one's existence, and forms a mitting prejude to the changing scenes and exciting events which follow. scenes' and exciting events which tollow. The stramer stopped at Southampton, where some massengers, the mails and a large quantity of gold and silver builton, were transferred to a tag boat. One barret was shown us which had the date 1868, and the guide said the vaile, was 2300 marks, or shout 56 a drop, and one couldn't buy it at that, which are the two reneons, why we didn't have any.

We left Bremen in the evening for Frankfort, and arrived there the heat morning. The scenery between Frankfort and Munich is not particularly interesting to describe. The firms are tired-looking and a peculiar feature is the absence of fences. The vine-yards, usually situated on hit sides, are very pictures of any, of what appeared to be, artificial forest. In only one place did I notice a wildomess. Occasionally we would passed me id ruin, and with the castle before as some party romance, as "air the Shelling's court" or some passage from the wond-rull poetry of Gothe or Schiller, or some facts in the history of Germany, would carry us army in a day dream until the shrift-wit site of the institute of Schiller, or some facts in the history of Germany, would carry us army in a day dream until the shrift-wit site of the institute of the party of the station, and we had a happy revaled to my friend D. RENOWNED PHYSICIANS AND SURGEONS Among the world's renowned surgeons. and foremost among them, here in Munich, is Processor Dr. Aussbaum. He is a cripple and has to be helped into the operating and his to be beloed into the operating room, where he daily stillfully and successfully performs those wonderful operations for witch modern surgery, is so famous. His lets are useless, but what he has lost in them to makes up in dexterity and skill of his hands and arms. He is, also very cloquent, and a sturdard author in scientific, as well as medical hierature! I can personally testify as to his kindness and cordiality. Munich is not only celebrated for its advantages in art, rusic and madeine, but also for its beer. I have long known of the intimate connection of music and medicine, but never before knew that bear could be so successfully mixed with thom. It was only yesterday, that Pro cesor. The other is cafe life and is very gay, but is note popular in Vienna and Paris than here. It is an experience that one always look's back upon with much pleasure.

that one always looks back upon with much pleasure.

The churches here are mostly Roman Catholic, or d some are very old and interesting. In one we saw a tablet which bore the date 1507. In mother was a painting of the crucilizion, said to be the largest painting in Germany. There is one English church, and it seems d quite natural to hear the prayer "for the president of the United States of America, and all others in authority." In one of the largest a military band plays the bymns, and the effect is most delightful and sweet, as the familiar tones of those beautiful hymns vibrates throughout the 'historical building, echoing and receding as if a "dozen bands took up the notes one after the other, until they become so soft one cannot hear them.

Medical Instruction in Munich.

MUNICH, Nov. 23.—A considerable num-ber of fereign medical students visit Munich every year great facilities being offered for general medical and surgical learning at a comparatively light expense, besides being a city of pleasant and interesting surround-ings. However, it a student goes to Europe from America with the intentior of remaining only is few months. Vienna is usually selected for the reason that in Vienna it is not necessary to go through the somewhat tedious and rigid process of matriculating. And also there are in Vicuna a number of professors who give short courses of from six to eight weeks' direction.

The process of matriculation is the same in all German universities and is a rather

complicated affair. The student first goes to the registrator and gives up his diploma of the college from which he is a graduate. Then a day is appointed for the matricula Then a day is appointed for the matricula-tion. At the appointed time he presents bimself in the senate chamber of the uni-versity, where he incets the rector, and signs a number of decuments and answers a number of questions regarding himself and his patents. The rector, then taking the student by the right hand, makes an address to him, after which he is given sev-eral papers, including his university card, which protects him from being looked up by the police should he get futo any trouble. But his diploma is kept until he ex-matricu-lates.

A majority of the clinics here are given in the general city hespital which contains about 2000 beds, but there are a number of other hospitals in the city. A course in gynecology, Professor Anuana, is held in other hospitals in the city. A course in gynecology, Professor Amunn, is held in the Reising ariantan polyclinic from 2 to 3 on three afternoons of the week. The students-examine a case and Professor Amunn gives the diagnosis and discusses; the case in a most intelesting manner. His methods are much in accordance with American views, and this ideas are very cleverly expressed. Perhaps the most popular course of all in Municil is that given by Professor Nussbaum in the general hospital. He performs a number of interesting and instructive operations before the class; discussing each sten of the operation in a most fluent way. He also delivers a course of lectures on the more recent advances in surgery. Professor Nussbaum is recognized as one of the greatest surgeous of the present time, and is a remarkable man. His lower limbs are completely paralyzed, consequently perfectly helpiess, yet it is as onerfecte as any of his pupils. He's carried into the lecture hall by four attendants, and once jokingly remarked that he had come in on ten logs. Prof. Ziemsenn holds a course on diagnosis and medicine in the surge said of the general hospital every week day from 91to 11 A. M. Refore the professor Xiemsenn lake gives a course on the professor. When a patient dies the students may be present at the autopsy at 12 o'clock.
